# THE EXTREMOPHILE CAMPAIGN: IN YOUR HOME

Microbial life is (nearly) everywhere – yet only a tiny fraction has ever been studied. It's an exciting new frontier for exploration and you can be part of the discovery!

## Get Started!

- » Create CitSci.org account
- » Join The Extremophile Campaign: In Your Home project
- » Look for weird things growing in/around your home
- » Upload photos of what you see
- » 100 observations will be chosen for DNA sequencing!
